Or do you just want to show your customers how great your new website is? If so, you're going to need SEO. SEO stands for Search Engine Optimization, and it's not just one kind of tactic — there are many ways to make your

---

company show up at the top of your potential customers' search results. Here are five very important ways to make your SEO work for you. Make sure you have quality content You can have all the SEO you want, but if your website isn't loaded with quality content, nobody's going to want to go back to your website again. Quality content is a key component of successful SEO, and Google wants you to have good content on your site. Quality content has a lot of different meanings. Different businesses have different types of content, depending on the kind of information they're wanting to get out. There's more than one way to skin a cat. You can do a lot of things to make sure you've got good content on your site. You can write articles, do interviews, and list information for users on your site
